

22 MAR 1973

Mr. Daniel J. Gaston
Regional Director
State Air Pollution Control Board
Northern Virginia Office
7115 Leesburg Pike, Room 104
Falls Church, Virginia 22043

Dear Mr. Gaston:

Your letter to the Director of Central Intelligence dated 2 March 1973 relative to possible violations of the Virginia Regulations for the Control and Abatement of Air Pollution at the Agency's Langley complex has been referred to me for reply.

In reference to Rule 4.703.01, Emission Standards for Furnaces, this Agency has ceased normal operation [REDACTED] within the Langley complex. This Agency presently has an approved project underway through the General Services Administration (GSA) for the construction of a [REDACTED]

STATINTL

[REDACTED] Until this project is completed, the [REDACTED] will be retained for use only in the event of extreme emergency conditions requiring expeditious disposal of our classified waste.

STATINTL

Action on Rule 4.705.03, Control of Hydrocarbon Emissions from Stationary Sources, is being transferred to the GSA, as that organization provides routine maintenance and operation to the stationary boilers located at the Langley complex. A copy of our letter transferring the action to the GSA is enclosed for your information.

The foregoing constitutes an interim reply. Upon compilation by this Agency of specific data requested on our [REDACTED] project, a complete response will be provided in the format requested.

STATINTL

Sincerely,

Signed: John F. Blake
